P.O. Box 348028
Sacramento, CA
95834
(209) 224-0003
Website: <https://nanp.org/>

Organization Profile/Description

The NANP is the only professional business league wholly dedicated to furthering the cause, education, and holistic nutrition industry standards. Our mission is to advocate for and empower a flourishing community of professionals dedicated to holistic nutrition principles. We have developed educational standards for holistic nutrition, natural chef training, and dietary supplement educational programs.

NANP boasts two important credentials you cannot earn anywhere else! The Board Certified in Holistic Nutrition® (BCHN®) credential and the Certified Dietary Supplement Professional™ (CDSP™) credential.

Board Certification is Important to the sustainability of our industry. A common credential, such as Board Certified in Holistic Nutrition®, demonstrates our unity as an industry and opens the door to assert ourselves as a viable part of the healthcare delivery system, proving that we undergo the same rigors as other health professionals. Those rigors include: getting a standardized education, passing a national board exam, staying on top of what's current in our industry (obtaining Continuing Education Units (CEUs)), and going through the credentialing process.

A unique credential, Certified Dietary Supplement Professional™ raises the bar and delivers a new and authoritative standard in the supplement industry. The education and exam rigor establish the Certified Dietary Supplement Professional™ credential as a necessity in supporting the whole of holistic health professionals.
