## Organization Profile/Description

This powerful plant based product line was birthed out of our CEO, Cancer warrior's own fight to heal herself 100% naturally 8 years ago.

Each of the products have been custom formulated by Natural Health Practitioner, Debbie K Thomas during her own discovery of tainted supplements/skincare filled with heavy metals, chemicals, GMO's and many carcinogens.

She began making these products out of her kitchen with items grown in her garden and soon was giving the final products to clients who were experiencing tremendous results! It did not take long for her to realize that she needed to be able to offer these products to other practitioners, chiropractors, naturopaths and healers to share with their clients.

Soul Tender Wellness believes that healing must occur from the inside out- getting to the root of the issue is key!

Offering wholesale and case pricing to all practitioners in the US and shipping daily from our new offices in Colorado.

## HEALCon Special

Free Shipping on first wholesale order- no minimum order required. Typically, we require a \$500 min for first order only. Will include free samples for clients in first order too!
